Unpacking and Installation

Although it is neither complicated to install nor difficult to operate your set , a few minutes of your time is required to read this manual for a properly wired installation and becoming familiar with its many features and how to use them.

Please take a great care in unpacking our set and do not discard the carton and other packing materials. That may be needed when moving your set and are required if it ever becomes necessary to return your set for service.

Never place the unit near radiators, in front of heating vents, excessive humid or dusty location to avoid early damage and for your years quality use. Connect your complementary component as illustrated in the following page.

CAUTION

RISK OF ELECTRIC SHOCK

Handling the Discs

1. Always place the disc in the disc tray with the label facing upward.
2. To remove a disc from its storage case, press down on the center of the case and lift the disc out, holding it carefully by the edges.
3. Finger marks and dust should be carefully wiped off the disc's recorded surface with a soft cloth.
4. Never use such chemicals as record sprays, antistatic sprays or fluid, benzine or thinner to clean discs. Such chemicals will do irreparable damage to the disc's plastic surface.
5. Do not expose discs to direct sunlight or high humidity and temperature for extended periods. Long exposure to high temperatures can warp the disc.

● How to operate USB

− MP3 Play

To recognize the USB device, there shouldn't be CD or DVD on the disc tray.

You can use a USB storage device and an exterior hard disc as the compatible USB device,

and the partition should be formatted by FAT32. In case of an exterior hard disc, it is possible

to recognize after separating the partition in 40Gb unit and formatting to FAT32.

When using an exterior hard disc, recommend you the product in 3.5 inches that supports

its own power supply to the exterior hard disc.

In case of the product in 2.5 inches, if the power consumption is larger than the supply power,

the recognition doesn't become occasionally.

− AVI Movie File Play

It is possible to play a DVIX movie file of AVI form. Depend on the capacity and resolution of file,

the playback might not play or might stop.

− JPG Photo File Play

It is possible to play a photo file of JPG format.

MEDIA CD PLAYER
